em...but i live now
in switzerland

and i'm an artist...

and if it was ok with them
if we record the...the conversation?

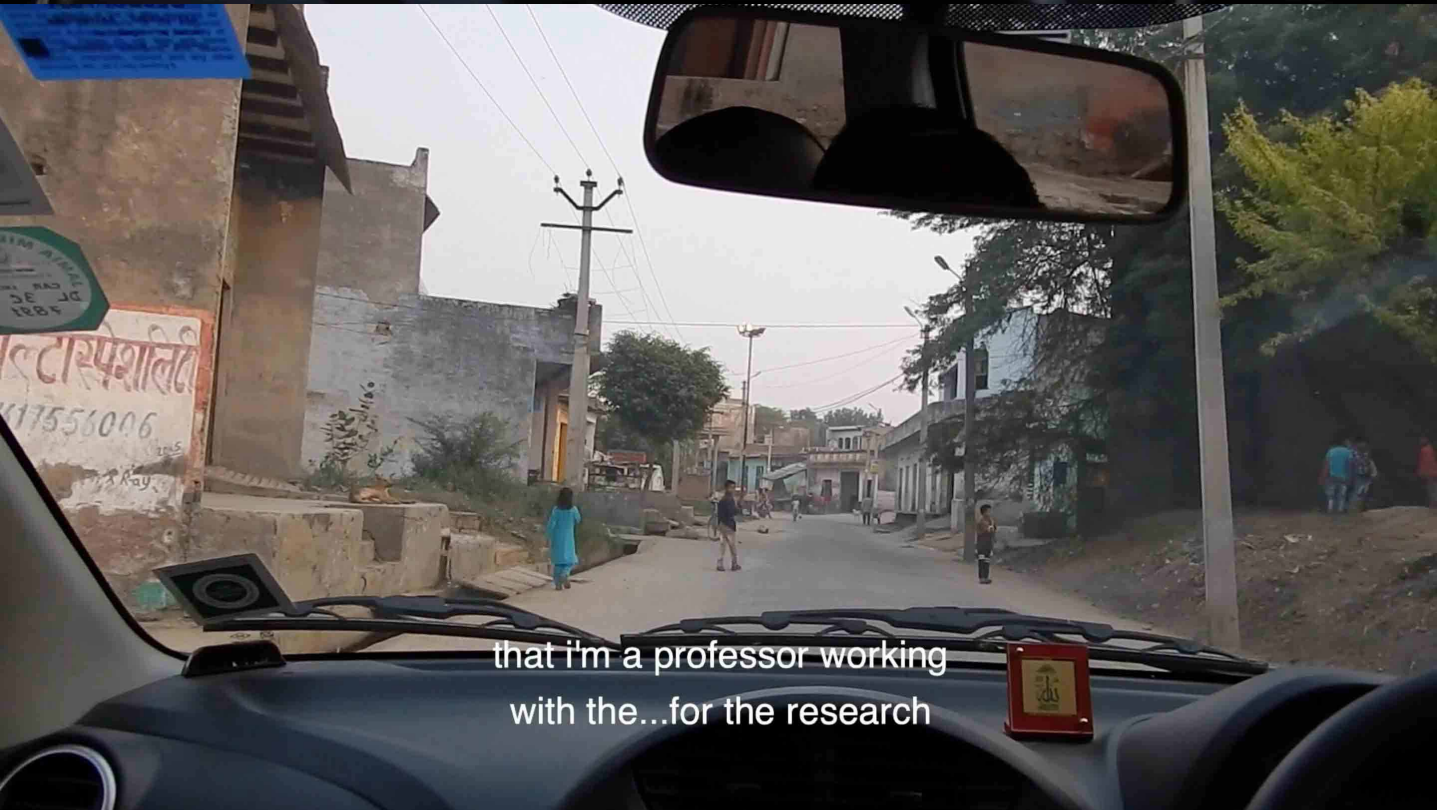

mhm - so please prepare
the questionnaire - mhm

well i'm not sure like...if like our idea
about the research is the same

i don't want to do this in a way
that is like alienating people

yeah yeah - then they
will give data - ok

because for research activity
everything is taken granted

that there is no harm
- mhm

and my topic
as em...professor mehmoos said

em...is about gated
communities

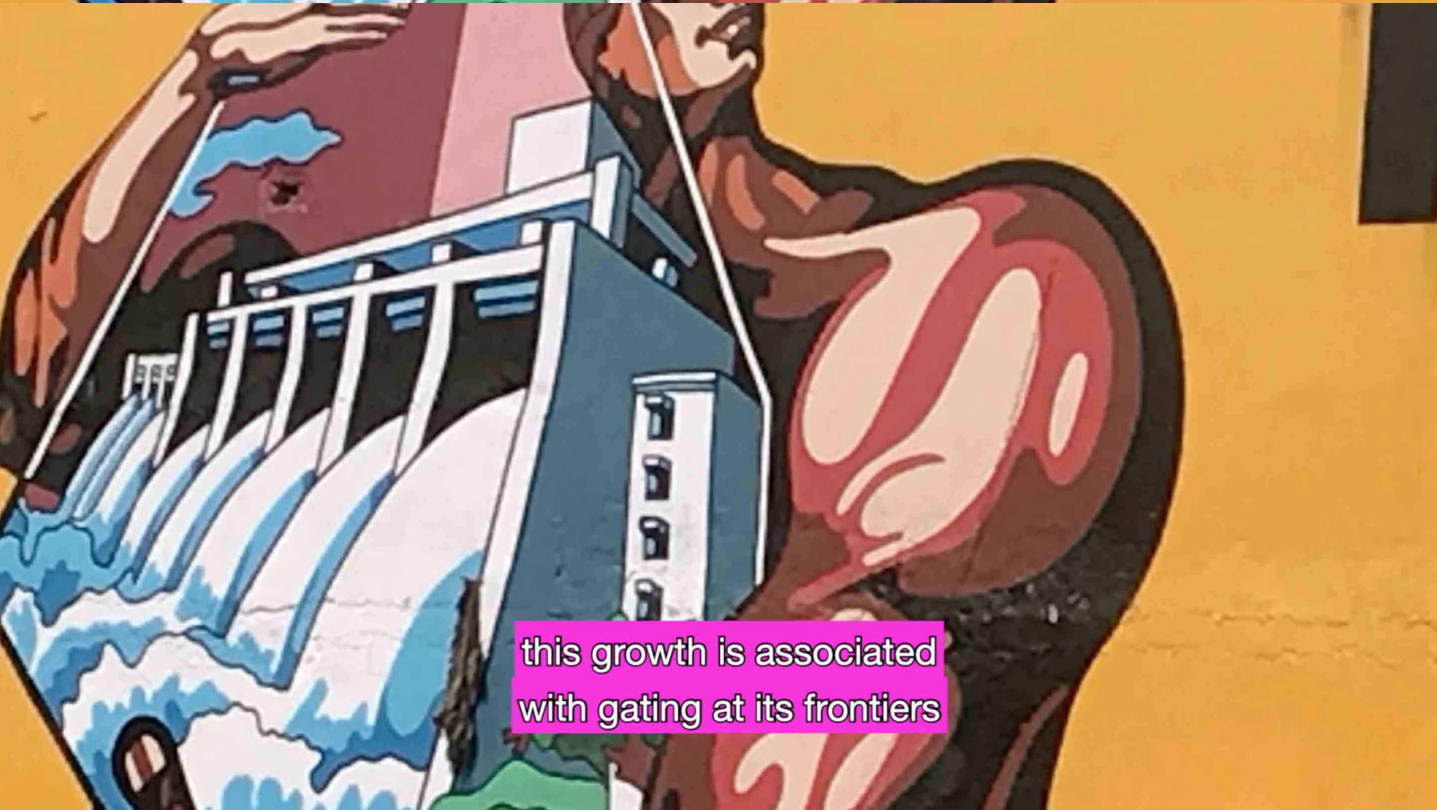

it's a global schema...

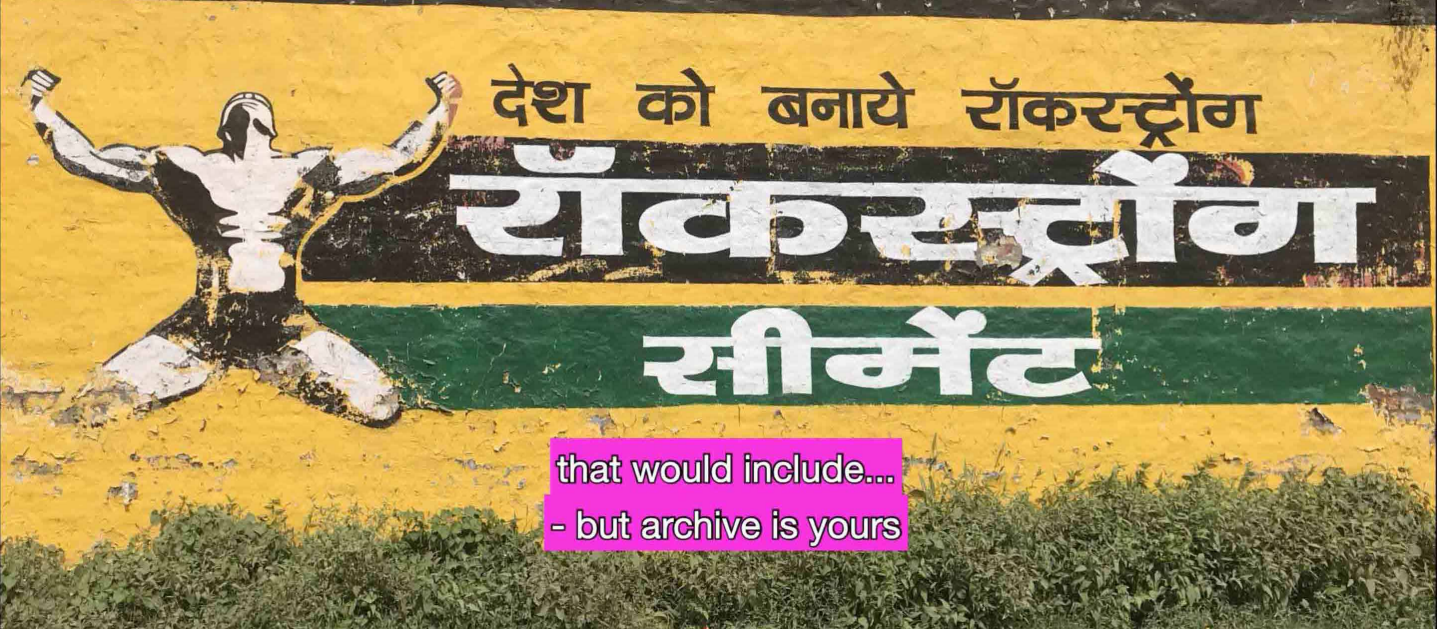

but as the city expands
as the delhi expands

this growth is associated
with gating at its frontiers

देश को बनाये रॉकस्ट्रॉंग

that would include...
- but archive is yours

देश को बनाये रॉकस्ट्रॉंग
रॉकस्ट्रॉंग

how would communities
use the archives?

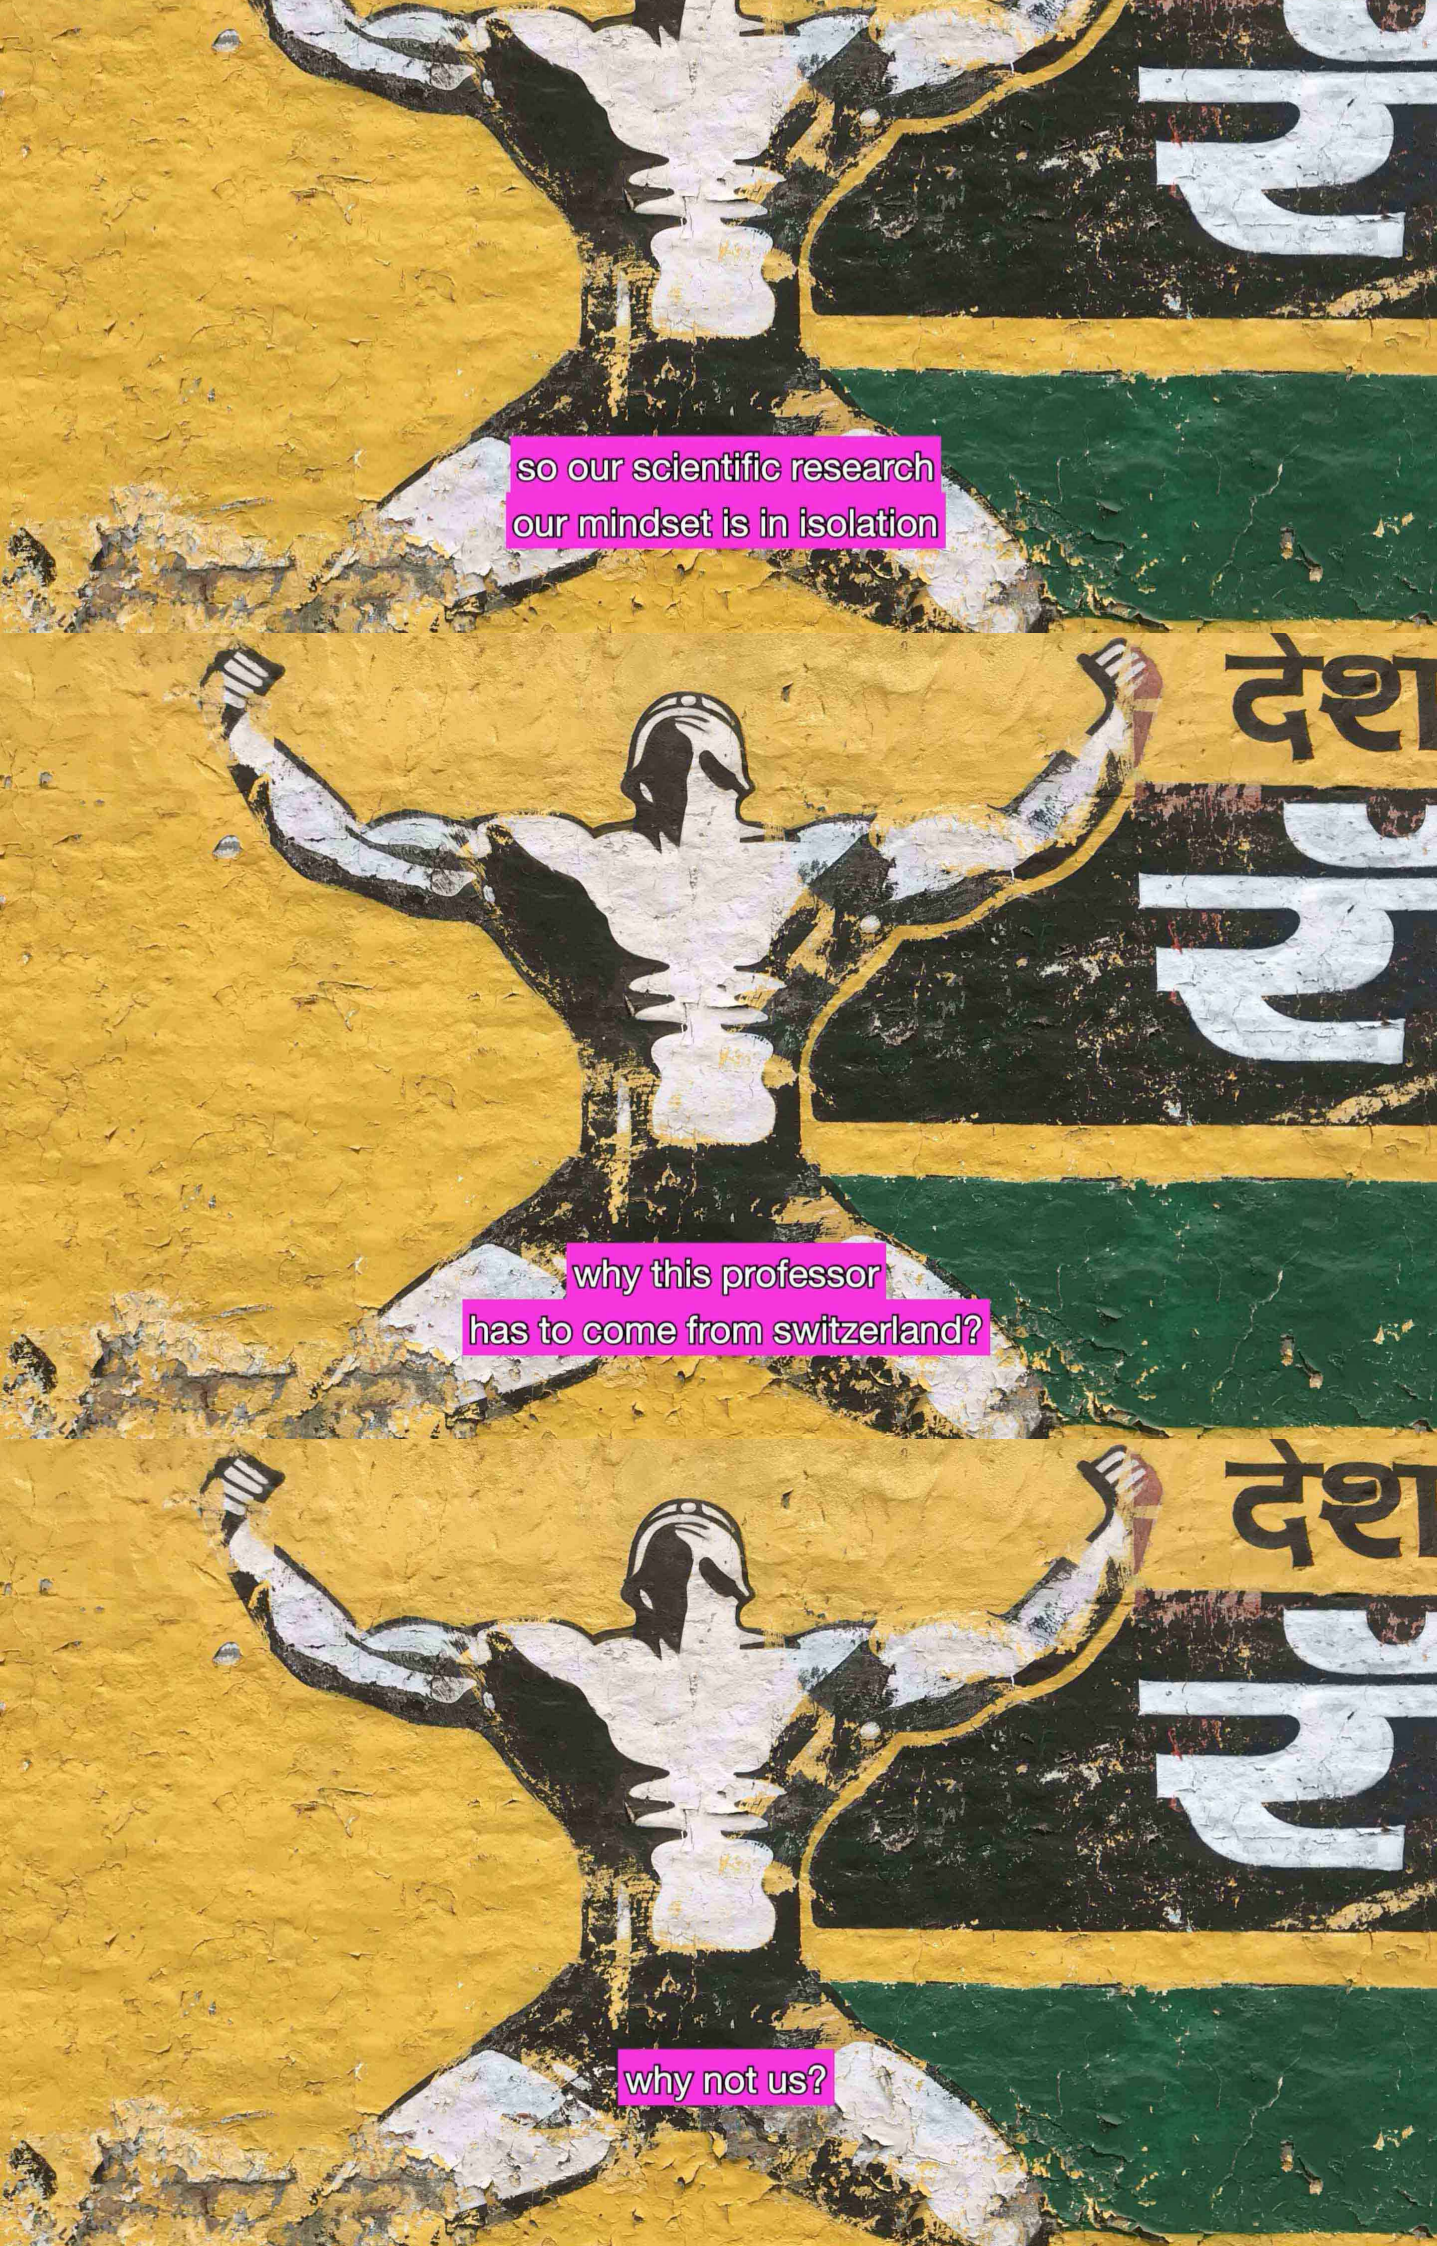

देश को बनाये रॉकस्ट्रॉंग

why should only researchers
benefit out of it?

the core issue of the subject is
that the scientific researchers in india

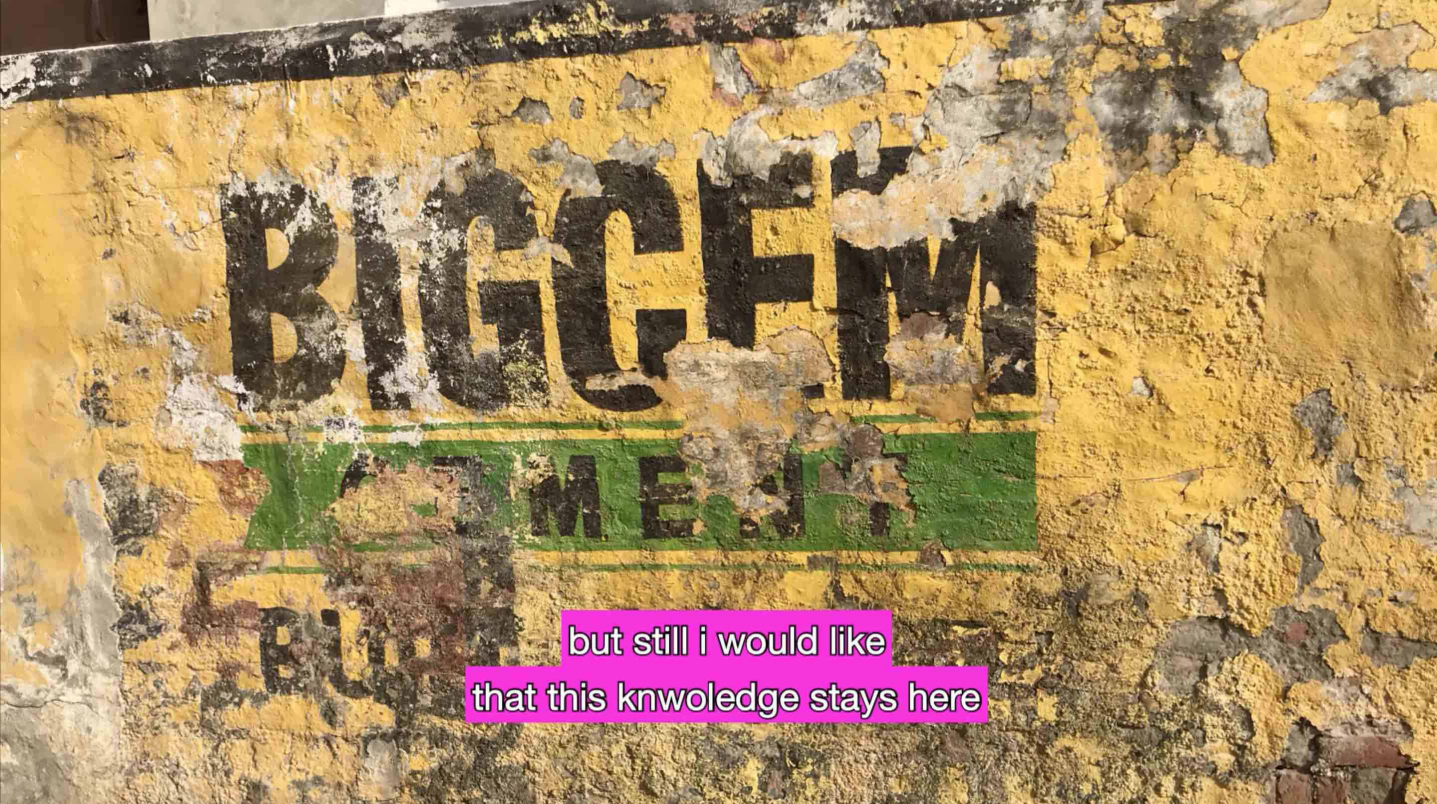

in the universities are confined to the...
within the library of the university only

so our scientific research
our mindset is in isolation

why this professor
has to come from switzerland?

why not us?

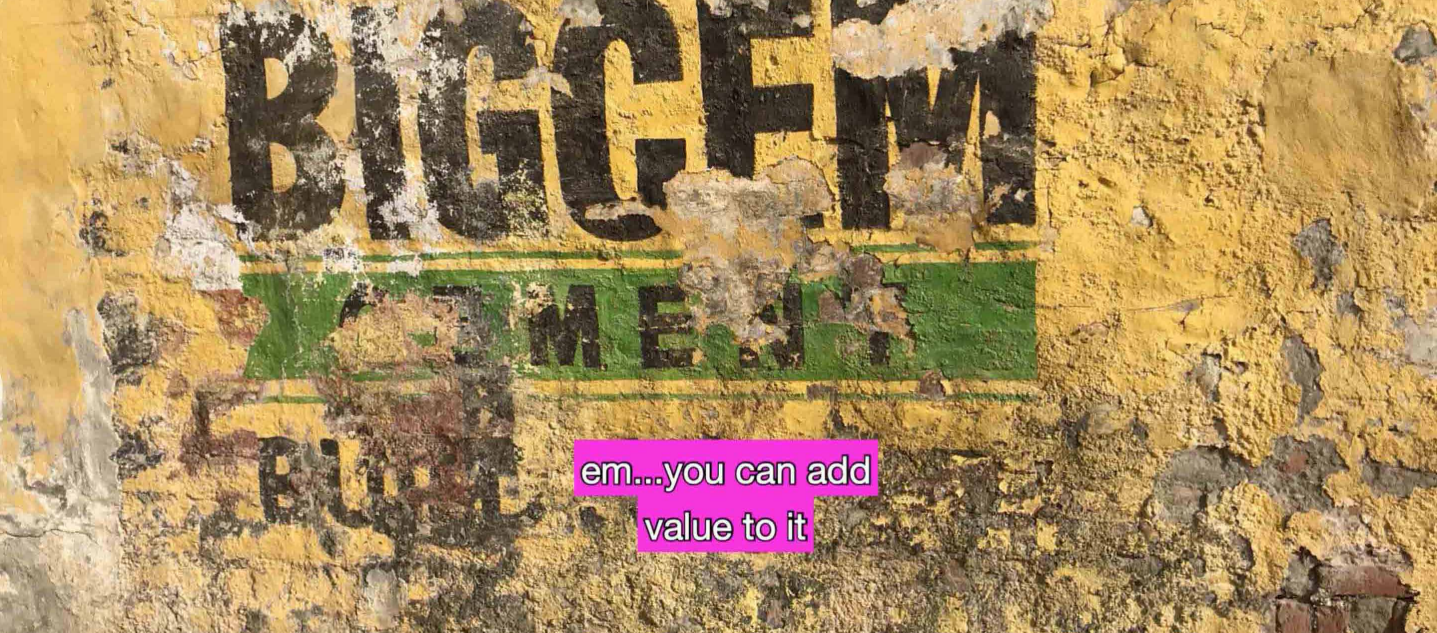

but still i would like
that this knwoledge stays here

no i don't mind
if knowledge goes out also

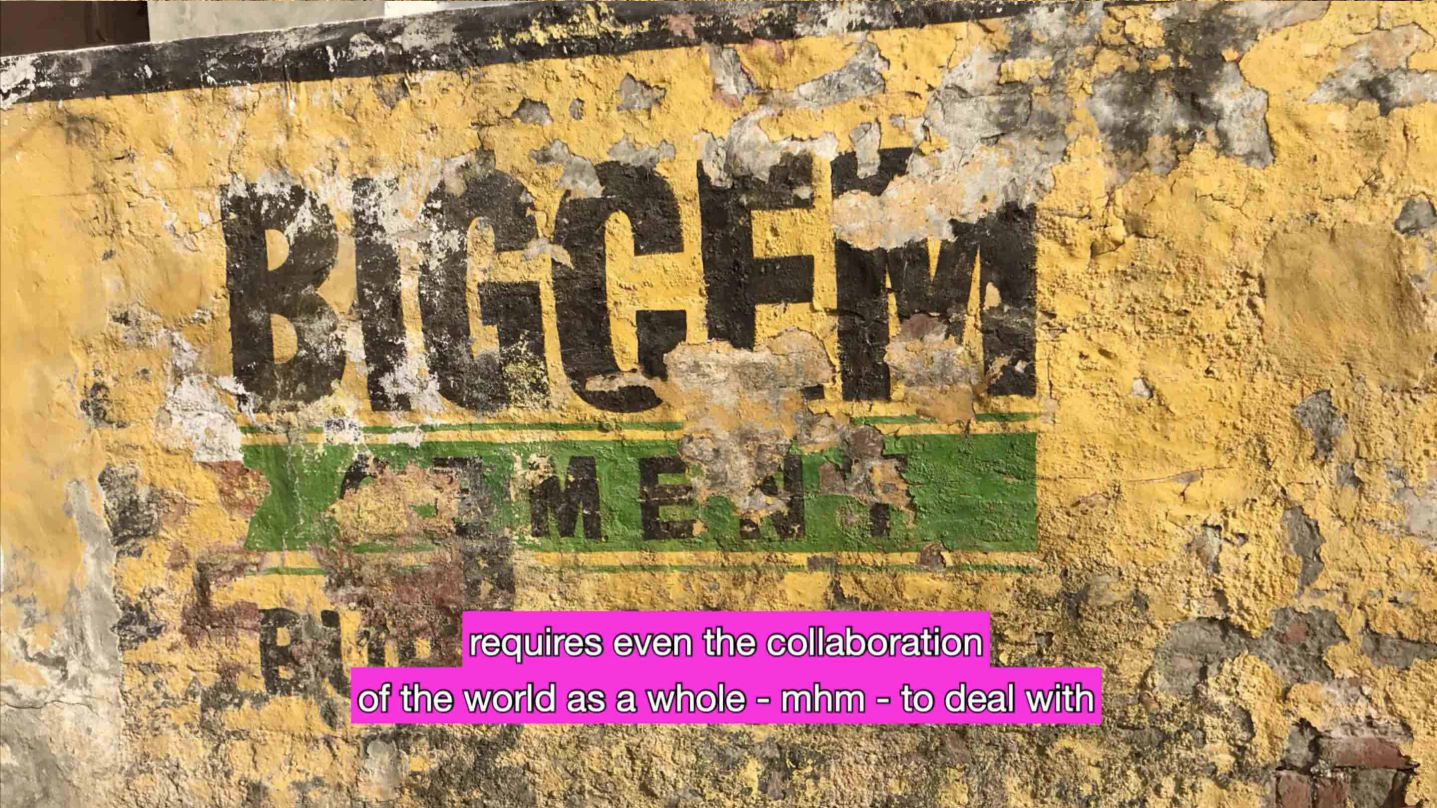

em...you can add
value to it

aha...see knowledge em...
needs to be built upon - mhm

requires even the collaboration
of the world as a whole - mhm - to deal with
