

Inês Henriques

Selected works 2020 - 2024

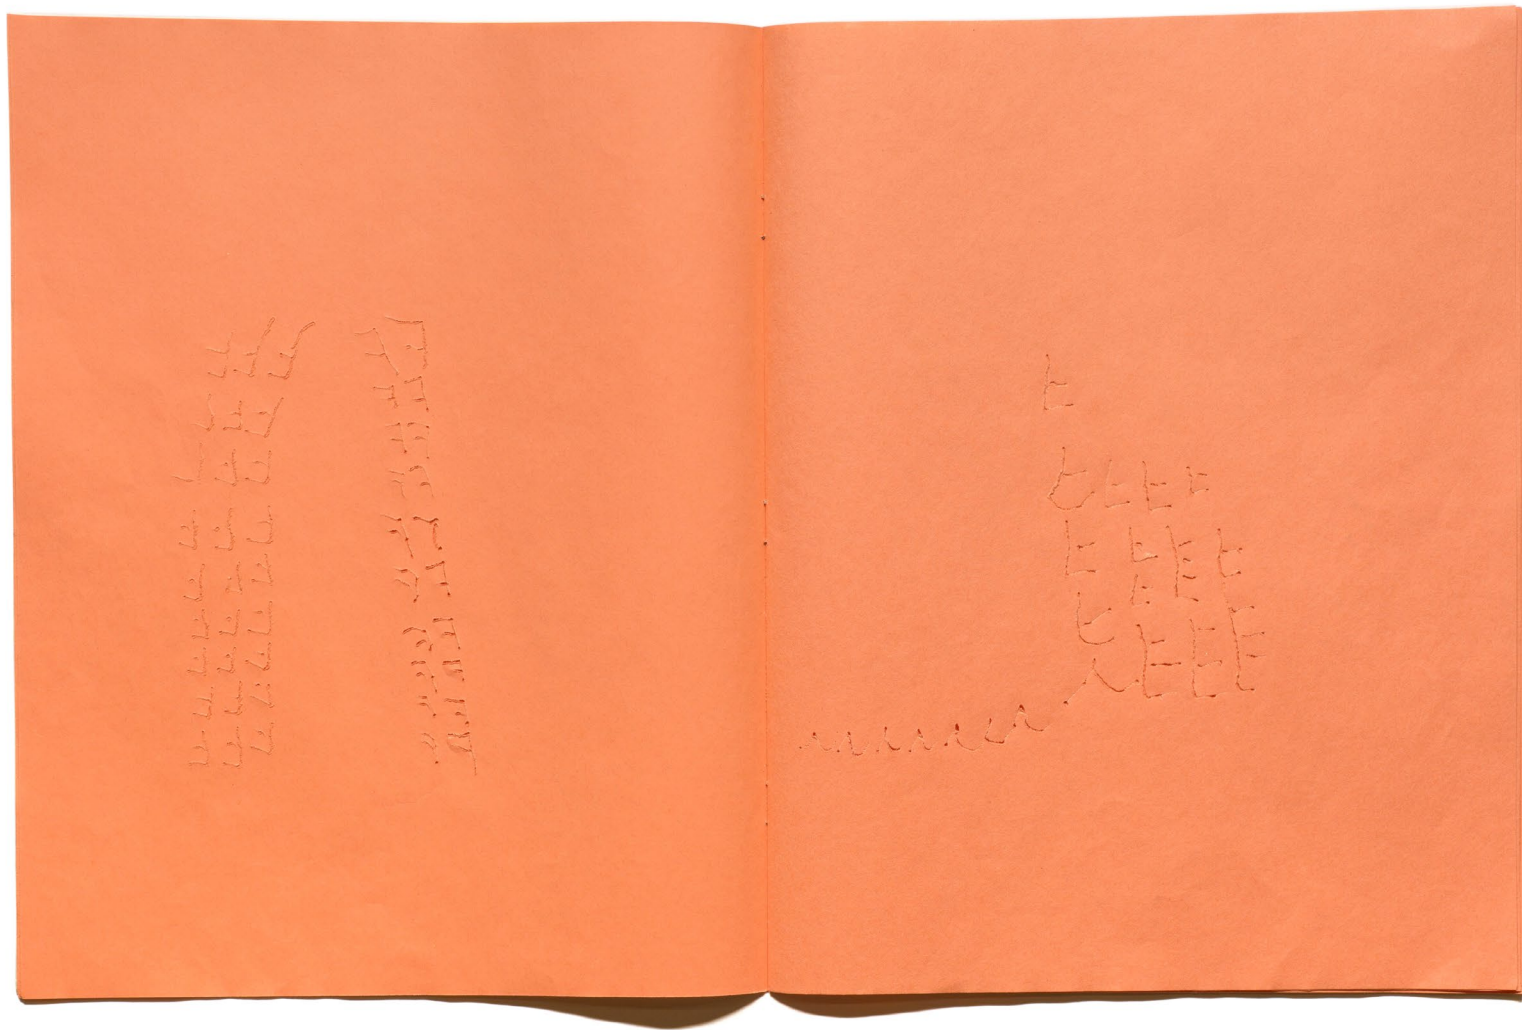

I develop my work mainly through drawing. My pieces start from the sketches I make in my notebooks. I observe, record, select, and transform shapes that I see, look for, find, and make, daily. It's about being sensitive and reacting. I pay attention to feelings, relationships, people, the passage of time, and the spaces I inhabit.

And I'm curious about how drawing and writing relate. Books. Stories. Ways of escaping to come back.
